

The screenshot shows the Visual Studio Code editor with the following details:

- Explorer Panel:** Displays the file structure of a project. The `src` directory is expanded, showing files like `App.js`, `index.html`, `logo192.png`, `logo512.png`, `manifest.json`, `robots.txt`, `.gitignore`, `docker-compose.yml`, `Dockerfile`, `package-lock.json`, `package.json`, and `README.md`.
- Editor Panel:** The `docker-compose.yml` file is open, showing the following configuration:

```
1 version: "3.8"
2 services:
3   react-app:
4     stdin_open: true
5     build:
6       context: .
7       dockerfile: Dockerfile
8     volumes:
9       - ./src/app/*
10      - /usr/src/app/node_modules
11     ports:
12       - 3001:3000
13
14
```
- Status Bar:** Shows the current file is `Ln 14, Col 1`, using `UTF-8` encoding and `CRLF` line endings. It also indicates the `Compose` service is running and `Go Live` is available.
